Rely On The Real Estate Insurance Specialists

At Distinguished Programs, we specialize in providing insurance products and services for the real estate industry. In fact, we built our business on it.

In 1987 we pioneered the country's first Real Estate Umbrella Liability Purchasing Group, which enables real estate entities to get exceptional pricing and high coverage limits on umbrella liability insurance. Today we work with hundreds of independent agents and brokers around the country to provide a wide range of competitive products for the real estate industry.

When we launched one of the industry's first programs designed specifically for "Affordable Housing," we tailored a program to meet the special needs of "Affordable Housing" property owners. For example, the Business Income portion of our **policy covers both rents and subsidies**. Most policies only provide coverage for loss of rents. This program is geared for:

- Low-to-moderate income housing
- Multi-family units
- Well-maintained properties
- Tax credit properties
- Private, not city- or government-owned
- More than 20% of rental income is government-subsidized

We've invested hundreds of hours understanding this important segment of the market. We work with brokers on "Affordable Housing" accounts on a daily basis. We know the risks they face, and we excel in developing creative, cost-effective solutions that help overcome them.
